

March 2, 2011

Stacey;

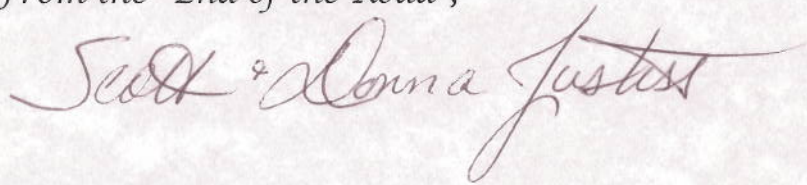

Now that our home is built and we have moved in, I thought this would be a good opportunity to drop you a note to express our tremendous thanks and appreciation for the outstanding job that you, Michael and your subs did throughout the project. As you know, Donna and I are extremely pleased with the finished product. I hope you are as well. In a very real sense however, I think that as much as we love our house we have taken even greater enjoyment from the process of bringing the house to completion, because it was so much fun working with such a dedicated and personable team.

I go back to an article I read in the Dallas Morning News about women home builders and how they are better than their counterparts when it comes to detail and working with the "Lady" of the house, and we found that it was very much so in working with you. Donna and I knew after our first meeting with you, that Texas Vineyard Homes would be our selection. We asked for you to give your honest opinion if you disagreed or had a better idea during construction and you did and that was very much appreciated.

Our new neighbor, who walks every day and was keeping an eye on the construction, was always commenting about how courteous and polite all of the subs were that worked on our home. They also treated Donna and I very respectfully and any other guests that came to see the home while under construction.

Stacey thanks again for all of your efforts. If in the future any of your other customers are looking for a reference regarding you or your company, please feel free to give them a copy of this letter, to have them contact me directly, or to have them visit our house to see your work first hand. I hope very much that we will get to work together again in the future. In the meantime, best wishes to you and your family.
