

First United Methodist Church

P.O. Box 263
Blue Ridge, Texas 75424

June 21, 2007

To All Interested Parties,

Please let this brief letter introduce Texas Vineyard Homes and Michael and Stacey DeLeon.

Just over 90 days ago, First United Methodist Church of Blue Ridge contracted with Texas Vineyard Homes for the construction of a new parsonage located at 9571 County Road 626 in Blue Ridge Texas. The project is now complete with move in scheduled next week. Michael and Stacey have our highest recommendation, appreciation and accolades. They have performed with professionalism and exceeded our highest expectations.

Our building committee consists of over 100 years of building experience in residential and commercial construction. When I say the standards were "a bit high," I am making an understatement to say the least. Stacey managed the project time line with the precision of a master scheduler while Michael managed the job site with direct supervision during all phases of construction. We never experienced a lack of supervision so common in our local construction industry. The project management was hands on and first rate.

Stacey and Michael brought the project in on time and under budget. They have also become dear friends to this church family. Finer folks could not be found to build a quality home to the highest standards without the natural stress of such an undertaking. Stacey and Michael made this project virtually stress free.

Our parsonage is available, with a scheduled appointment, for prospective clients to visit. We are proud of our parsonage and welcome the opportunity to share it and Texas Vineyard Homes with all who are interested.

We give Stacey and Michael our highest recommendation, most heartfelt thanks and deepest respect for making our building project a pleasure and a blessing.

God's peace and blessings,

John A. Johnson
Pastor, First United Methodist Church of Blue Ridge
